Nader Saiyed Opeyany

Software Developer

It's a pleasure to meet you! I am a Software Developer with 4 years of experience, and a Bachelors in Computer Science. My experiences center around Python scripting and BASH functions on existing and new code bases for NVME SSD drives on a industrial scale, as well as Web Development and User Engagement in C# and BOOTSTRAP.

WORK EXPERIENCE

Software Developer
Solidigm

09/2022 - 12/2023   *Rancho Cordova,California*
SSD Memory development for personal and industrial use.
Achievements/Tasks

- Create new software to automate Non-volatile Memory Solid State Drive testing using Python, Bash, Linux, Altiris, Git and Jira.
- Ensure all drives are accurately testing for Temperature and workload sustainability under heavy Inputs/Outputs through DevOps.

Contact : Brandon Vineyard

Software Engineer Intern
Chevron IT

05/2022 - 08/2022   *Houston,Texas*
Achievements/Tasks

- Position as the Software Engineer Intern building a C# and .Net application. Created a prototype of complete work for crude assay data integration between Azure Synapse and Spiral Assay using SDK functionalities and Automation for Enterprise Data Sets to predict hydrocarbon yields. Coordinated with Product Owner and Team Lead on deliverables as well as presented my tool to stakeholders.

Web Admin Intern
City of Sacramento

01/2021 - 05/2022   *Sacramento, California*
Achievements/Tasks

- Worked under and alongside my immediate manager and other Front-end engineers to help develop and maintain the City of Sacramento's website using technologies such as Virtualization, HTML, CSS, JavaScript, Sitecore and Seamless Docs.

EDUCATION

Computer Science Major, Bachelors of Science
Sacramento State University

08/2020 - 06/2023
Courses

- Computer Software Engineering
- Intelligent Systems
- Computer Network Fundamentals
- Data Structures + Algorithm Analysis
- Database Management Systems
- Linux Operating Systems

Computer Science Undergraduate
Folsom Lake College

06/2017 - 05/2020
